

WHAT DOES IT

NLP TRAINER'S TRAINING AND

TAKE TO BE A

NLP TRAINER'S EVALUATION & CERTIFICATION

TRAINER?

ADVANCED NEURO DYNAMICS, INC.

A Word from Dr. Tad James...

I often begin my Trainer's Trainings with this question, "What does it take to be a trainer of NLP?" There are a variety of reasons for coming to an NLP Trainer's Training, and there are a variety of Trainer's Trainings available today.

In my opinion, when you achieve the level of NLP that is beyond the Master Practitioner, then your method of evaluating and choosing an NLP training must change. You must examine the people doing the training even more carefully, and the organization behind the training with the utmost of care. **Choose your trainers wisely!**

It is my intention to have as many people as possible teaching this information because it's in everyone's best interest to share this information with the world. One of the ways I contribute to that goal is by creating trainings that help make great teachers—such as our Trainer's Training and Evaluation & Certification Program.

When you train with me, you'll find that I share what I have learned as openly and directly as possible. I'd like you to benefit from my experience, my mistakes, and my successes. This training is the final piece that integrates all the NLP trainings into one. I hope you join me.

Who Benefits From This Training?

This training course teaches people how to present to groups, and how to function masterfully in group environments. While the most direct beneficiaries of this course may be those interested in teaching Neuro-Linguistic Programming, the skills and behaviors you will learn are extremely beneficial and applicable in a wide variety of contexts. Anyone desiring to give presentations or speeches, work more effectively in team environments, handle meetings more efficiently, lead groups, or conduct professional trainings, seminars or workshops will find this training to be of tremendous value. This training will make the difference between being a good presenter... and being an Excellent Presenter!

Customized Topics

During the training, you will participate in a presentation group which will focus on a specific context of NLP training, business and sales, education, or areas of health care. Additional topics may be identified, depending upon the interest of the participants in attendance. The content of individual presentations is to be on specific areas of NLP so you have the opportunity to more fully integrate the NLP information you already know, while also mastering new material and skills.

Learn to be Comfortable & Confident as a Presenter

This training gives you the knowledge and tools you need to be a polished presenter, and if you are like most people, you also want to be comfortable, confident, and resourceful. In many studies, the most common fear in America is the fear of public speaking—even more common than the fear of dying! It takes more than just a few lectures and a couple of times on stage to overcome such a prevalent fear. Our entire training is based upon gently guiding you, step by step, through a supportive, ecological, and enjoyable process! Learn and experience how to turn this fear and anxiety into excitement, energy, comfort, and confidence that contribute to your success!

I was a bit skeptical about attending. I have been a corporate consultant, trainer and professional speaker for over 17 years. I've been the National Training Manager and Sales Trainer for AT&T. I have attended a myriad of trainings and have studied with every outstanding speaker in the business. To my delight and surprise, I learned a multitude of techniques, skills and tools that I could put into use immediately. I thoroughly believe that this Trainer's Training took my skills and presentations to an all new level! Thanks for the opportunity and knowledge!

HERE ARE SOME POINTS YOU MAY WANT TO CONSIDER, ESPECIALLY FOR SOMETHING AS IMPORTANT AS A TRAINER'S TRAINING!

1. Trainers of the Highest Quality & Expertise

Choose your teachers wisely. For a training that is dedicated to teaching you how to train, the excellence of the training staff is of the utmost importance. Tad James and our expert team of Master Trainers and Trainers are some of the world's leading NLP trainers and innovators. We provide you with only the best—the most qualified, skilled, knowledgeable and personable trainers who are masters in Accelerated Human Change Technology. The bottom line is we are committed to excellence and we love to teach!

I've been in various Trainer's Trainings at least 4 times before, and have taught in the computer industry for 16 years and I have never experienced such incredible in-depth teaching before.

2. Record Of Success

We've been conducting NLP trainings since 1982 and Trainer's Trainings since 1985. According to Dunn and Bradstreet figures since 1992, we're one of the largest NLP training organizations in the world. While the fame of a trainer or organization doesn't ensure quality, it can be an important indicator of the value provided. After all, it is a following of people that creates popularity. Year after year, we receive a very high number of referrals and repeat customers. We consistently receive the highest ratings on our evaluations. We have achieved this by presenting excellent trainings and producing effective trainers—after all, that's what we're all about!

3. Walk The Talk

To teach something is not necessarily an indicator of having mastered it, yet the great teachers of the world "walk their talk." They live, breathe and exude the principles of their teachings. It is important for knowledge and behavior to be congruent. Amazingly, there are some very famous NLP trainers who don't demonstrate the basic skill of rapport on a regular basis! At

Advanced Neuro Dynamics we like to consistently lead and teach by example.

Your commitment to making not only trainers, but absolutely excellent trainers earns my highest respect. Excellent beyond expectations - I challenge anyone to produce better quality trainers of NLP in one single training.

4. Ample Opportunity to Present & Receive Immediate Feedback

We have a very high ratio of staff to students in our courses. For this event, we will have 20 Certified Trainers who will support you to be the best you can be! Throughout the training, you will actually be presenting several times a day. You will not only be receiving immediate, quality feedback, you will have the opportunity to give feedback which reinforces your own learning. These are indicators of real value in a Trainer's Training.

Unique for Advanced Neuro Dynamics is that you educate for all segments - business, education, management, therapy and personal growth.

5. Challenging For All Levels of Expertise

No matter how experienced you may already be, novice or expert, this training has a lot to offer. You will be amazed at how quickly you

improve, and how quickly others do as well, even in just the first few days—not just the "gifted" presenters, but everyone! You will easily learn the exceptional techniques of NLP as applied to presentation skills, and be able to use them immediately. These areas include the use of physiology, energy, state control and elicitation, stage anchoring, group rapport, trance induction, nested loops, utilizing questions, pre-teaching, presentation design, and much, much more! You will definitely be stretched to your potential!

Trainer's Training is probably the highest level of training on the planet today. It is so much more than its name, as you are challenged, inspired and transformed to new levels on a daily basis.

6. Presentation Methods

There are a variety of NLP trainers in the world. There are trainers who are delightful entertainers, fantastic storytellers, great hypnotists, and those who impart useful information and demonstrate great talent. We think it takes all of these skills plus a multi-media approach to present a great Trainer's Training, and this is where we place our emphasis. We have heard about Trainer's Trainings that are boring, intimidating, or less than satisfying. We know what it takes to be an excellent trainer. Our commitment is to provide you with only the best. Our training will entertain and inspire you, encourage and challenge you, and engage and support you!

An affirming, inspiring experience. I was stretched and challenged to achieve goals I would never have thought possible -- goals that I reached with an excellence I had believed years beyond me.

*Richard Bolstad
Christchurch, New Zealand*

7. Length Of Training

It's been our experience after having numerous successful Trainer's Trainings, that it takes more than six or seven days to have a thorough training from which you can leave with integrated skills and confidence that last. While there's no set required amount of time for an effective Trainer's Training, you need time to prepare and make presentations, and receive quality feedback. You also need time to experience great trainers in action, and time to master the variety of material covered. Even though we are very effective with accelerated formats, we think it takes longer to conduct a great Trainer's Training. With our training design, we offer the leading-edge of excellence. We've designed a powerful training to take you well beyond just basic presentation skills.

This training was the most exquisite learning and growing experience that I have ever had. The perfection of how everything was layered astounds me.

*Nan Murray
Dallas, Texas*

8. Training Versatility

It is good to know the range of experience and expertise of anyone with whom you study. Advanced Neuro Dynamics presents some of the best NLP trainings in the world. We also present a variety of other valuable, advanced technologies that complement, supplement, and extend the benefits learned and achieved with NLP.

We teach the breakthrough Secret of Creating Your Future® Seminar to the general public. We teach business people to reach new levels of effectiveness with innovative communication and sales skills. We teach Time Line Therapy™ techniques and hypnosis to the therapeutic community. We teach advanced learning and teaching strategies to educators. We even teach the ancient Hawaiian wisdom of Huna to people with more esoteric interests. All of these different trainings have one thing in common—our participants love them! You need versatile skills to teach in different markets, and we prepare you well.

As a teacher, this is the best classroom' experience that I have ever experienced. The training design is excellent and all teachers would profit greatly from this training!!

*Mary Donecker
East Petersburg, Pennsylvania*

9. Full-Service Organization

It is very important to consider the organization behind the training. This is another strength of Advanced Neuro Dynamics. We provide further opportunities to encourage your continued development and success:

- Trainer's Evaluation & Certification—providing you with the opportunity to be certified as an NLP Trainer. Most organizations aren't qualified to offer that.

- Ongoing support via e-mail or phone —encouraging your continued growth.
- Advanced Professional Development— offering the means for becoming a Master Trainer of NLP.

An exquisite experience to experience. The training is skillfully designed to give you all the resources you need to be a great trainer.

NLP TRAINER'S EVALUATION & CERTIFICATION

The most rewarding evaluation you may ever experience!

What is it?

This is a formal NLP Trainer evaluation and certification program approved by the American Board of NLP. It is not designed to introduce content. You will be tested on your NLP knowledge with a written test. You will be tested on your NLP skills with presentations you will make utilizing what you learned in the Trainer's Training and an NLP demonstration. With successful completion, you will receive certification as a Certified NLP Trainer.

What are the benefits?

The direct benefit is being qualified as a Certified NLP Trainer, which adds legitimacy and credibility to any NLP business.

The indirect benefits are many. The high level of mastery demonstrated and experienced over these four days is incredible! Most participants report leaping to a whole new level of skill. It is an empowering, enjoyable experience and, if you're like most, you will leave more capable and confident as a Certified NLP Trainer!

What if I don't plan to train others in NLP?

We have found over the past ten years that most participants strongly desired to be certified to gain a sense of completion, even if they had no plans for training others. Since this is a personal decision, something important to consider is that certification provides formal endorsement of your level of expertise. Certification increases your career options now, and in the future.

Great evaluation format! Ensured me the choice to succeed. Why would I want to take a Trainer's Training where there was no chance to be certified? This was great!!
